ABDULLA AL HUSSAIN

B.Sc. in CSE

sabitnirob@gmail.com | 01791222007 | 22/1Rajshahi,Bangladesh

PROFILE SUMMARY

B.Sc. in Computer Science and Engineering graduate (CGPA 3.78) with strong expertise in full-stack web development and AI-driven research. Experienced in building scalable, secure applications using React, Node.js, MongoDB, Firebase, and modern UI frameworks (Tailwind, DaisyUI). Active contributor to competitive innovation programs such as Hult Prize 2024, and author of an accepted research paper at IEEE ICCIT 2025 on diabetic retinopathy detection using deep transfer learning. Proficient in Python and C++ with solid problem-solving and analytical skills, fluent in English and Bengali, and comfortable working in collaborative, global IT environments.

DATE OF BIRTH

02/12/2003

EDUCATION

B.Sc. In CSE *2026*

- Varendra University
- CGPA-3.78

HSC *2020*

- Shahid Buddhijibi Government College,Rajshahi
- GPA-5.00

SSC

- River View Collectorate School, Rajshahi
- GPA-5.00

2018

WORK EXPERIENCE

Research work IEEE ICCIT 2025 *2025*

Research on diabetic retinopathy “Detection and severity classification from fundus images using deep transfer learning” ; accepted at IEEE ICCIT 2025.

Web Project Showcasing (Donation website) *2024*

Hope’s Rising – A full-stack donation platform built with React, Node.js, and Firebase, allowing users to contribute securely across multiple categories with real-time data handling.

Hult Prize *2024*

Hydro Harmony (Hult Prize Competition) – Developed an innovative project idea focused on safe water solutions, addressing sustainability and accessibility challenges as part of the global Hult Prize initiative.

PROFESSIONAL SKILL

Web Development

- **Frontend**(React,javascript,Nodejs,MongoDB)

  Book Store – Full-stack web application built with React, Node.js, and MongoDB, featuring product listing, category management, and secure user transactions.
  Notepad – Web-based note management app using React, Node.js, and MongoDB, enabling users to create, edit, and organize notes with real-time updates.

- **HTML,CSS(Tailwind,DaisyUI)**

  Project one
  Project two
  Project three

Programming

Python: Implemented AI-based models and numerical methods (e.g., equation solving, optimization techniques), showcasing strong problem-solving and analytical coding skills.
C++: Developed multiple algorithms including cryptographic techniques (AES, DES, etc.) and classical problem-solving algorithms, demonstrating efficiency in low-level programming and data structure handling.
Java: Basic OOP.

Problem-Solving & Analytical Thinking

MS Office

LANGUAGES

- **English: Fluent (Speaking, Reading, Writing)**

Fluent in English with strong professional communication skills, including technical documentation, presentations, and collaboration in academic or business settings. Able to interact confidently in global professional environments.

- **Bengali: Native (Speaking, Reading, Writing)**

Native proficiency in Bengali with excellent verbal and written communication. Skilled at conveying complex technical ideas clearly in both academic and professional contexts.

EXTRACURRICULAR ACTIVITIES

- **Football** – Actively participated in school-level, university internal leagues, and external tournaments; achieved Runners-up in the Intra-Department Football Tournament. promoting teamwork and discipline.
- **Gardening** – Over 10 years of experience in gardening and bonsai cultivation, demonstrating patience, creativity, and long-term commitment to personal projects.
- **Volunteering –** Gained experience in sports and event management, contributing to organizing, coordinating, and supporting various activities and tournaments.
